**Village Electrical Aggregation Program**

**SAVOY** – The Village renewed the municipal electricity aggregation program this fall with a new supplier, Energy Harbor. This is an “opt-out” program, meaning that residents will be automatically enrolled unless they deliberately and specifically choose a different supplier.

The new aggregation term will begin with the February 2023 meter read.

If residents want to participate in the Village’s aggregation program, there are no additional steps that need to be taken. If you want to opt-out and go with Ameren or a different supplier, you will be able to do so by responding to a letter that the new supplier, Energy Harbor, will send to residents in mid-December. Ameren then will send residents one more letter, stating the resident’s energy supply is moving to Energy Harbor and the resident has ten (10) days to opt-out. Unless account holders opt-out, they will be automatically enrolled in the aggregation program.

Please note, if you do opt-out and return to Ameren or another supplier, you cannot return to the aggregation program for 12 months.

The competitive bidding process resulted in a fixed rate of \$0.1210 per kilowatt hour for a 22-month term starting in February 2023. Ameren’s current price to compare as of October 1 through May 2023 is \$0.12236 per kilowatt hour.

No one affiliated with the Village or the aggregation program will come to your door or call you to discuss, seek, or confirm enrollment. Questions about the municipal aggregation program can be addressed via email at [gecsi@goodenergy.com](mailto:gecsi@goodenergy.com) or by phone at (844) 686-4244.
